# Grandma Tannis's 7 Times Rhymes

for kids who can count  
to 63

## Note to Parents:

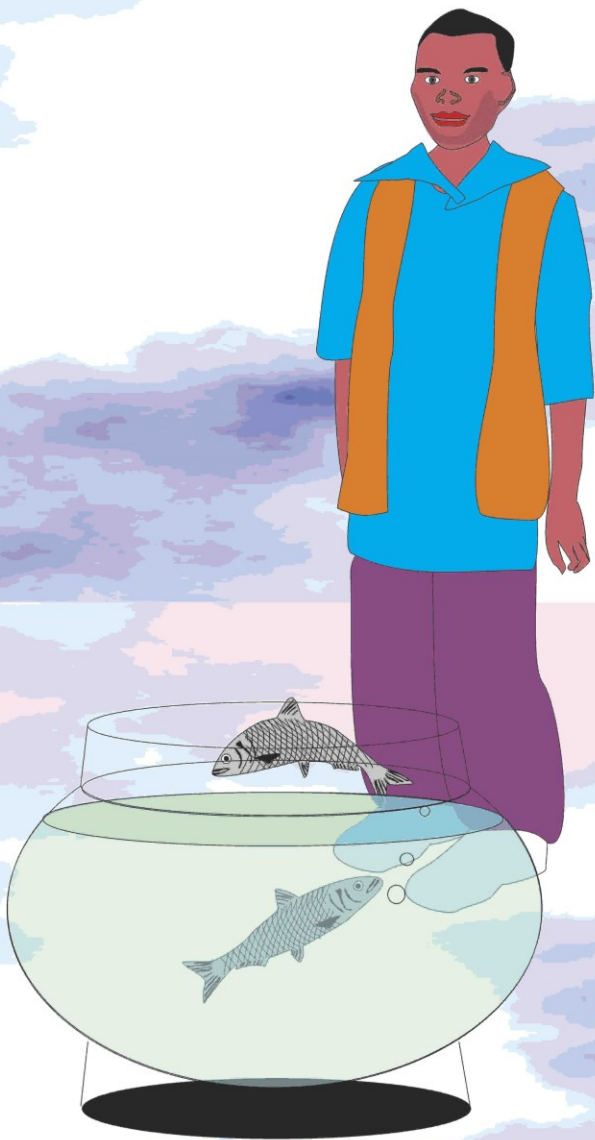

For millennia, people have used an oral tradition to pass information between generations. Rhyme and rhythm have always benefitted the process of memorization. As you read the book, you can count with your child to establish the validity of each rhyme.

7 times 2 is a  
cool 14  
when 7 men each  
keep  
2 sardines.

7 times 3 is 21,  
if 7 men each  
have 3  
grandsons.

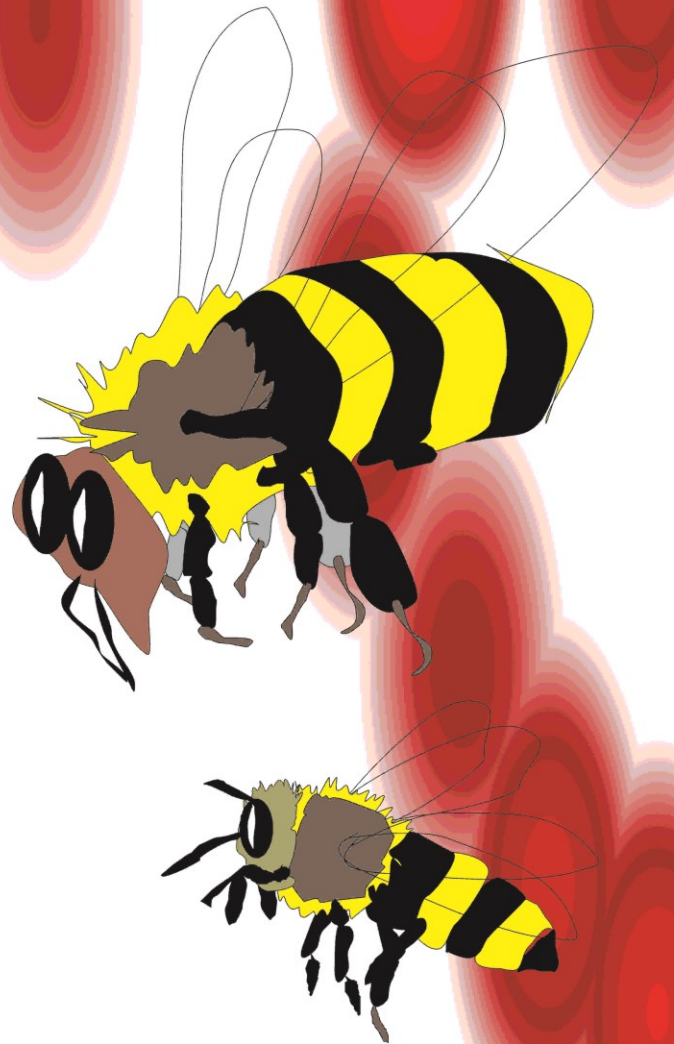

7 times 4 is 28  
when 7 men  
each have  
4 playmates.

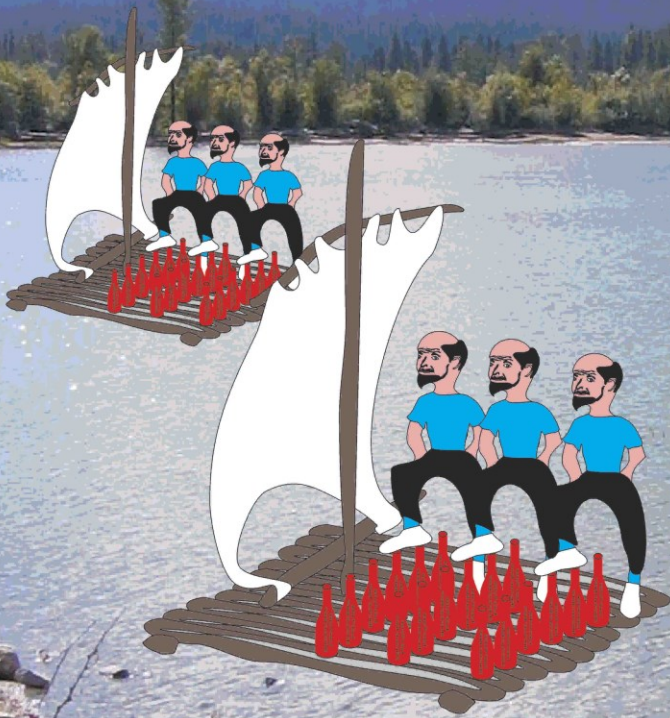

7 times 5 is 35  
when 7 men each  
keep  
5 beehives.

7 times 6 is 42,  
as 7 each  
drink 6  
mountain brew.

7 times 7 is 49,  
as 7 each  
hunt  
7 porcupines.

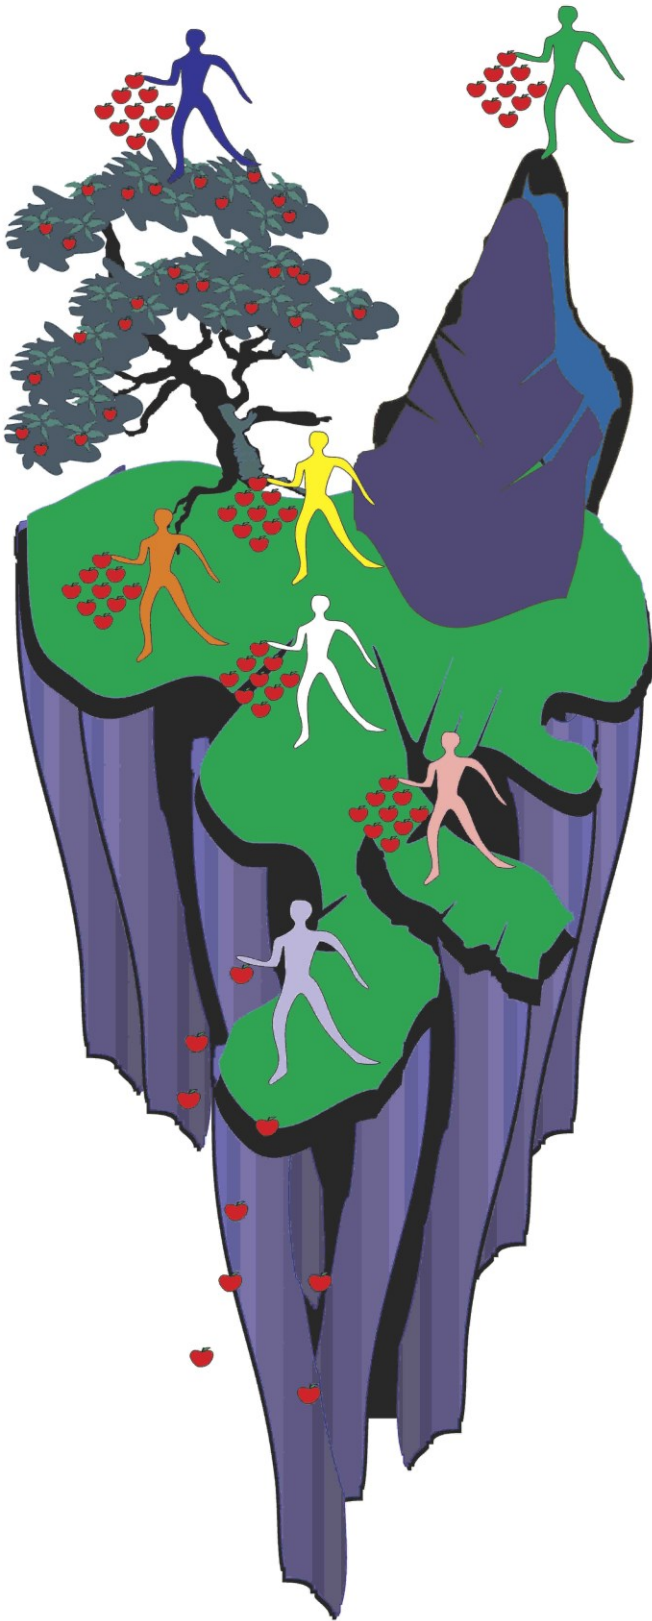

7 times 8 is 56,  
as 7 men each  
play 8  
drum licks.

7 times 9 is 63,  
as 7 men each  
pick 9  
from a tree.
