

$$8 \times 1 = 8$$

Grandma Tannis's

# 8 Times Rhymes

for kids who can count  
to 72

$$8 \times 1 = 8$$

8 x 2 is a cool  
16  
when 8 each buy  
2 magazines

Note to Parents:  
For millennia, people have used an oral tradition to pass information between generations. Rhyme and rhythm have always benefitted the process of memorization. As you read the book, you can count with your child to establish the validity of each rhyme.

8 x 9 is 72  
when 8 women  
each keep 9 emus.

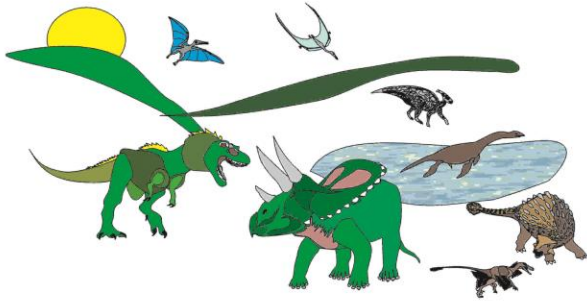

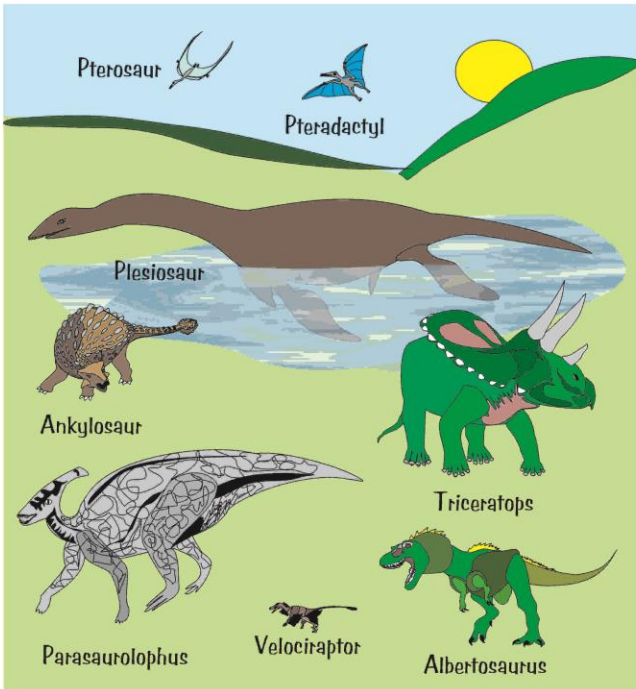

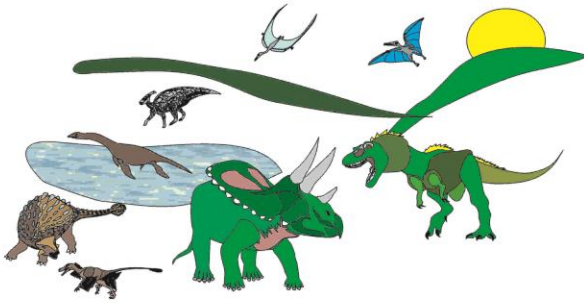

8 x 3 is 24  
 if 8 each own  
 3 Labradors

8 x 8 is 64  
 when 8 valleys  
 each hold 8  
 dinosaurs.

Creatures of the Cretaceous

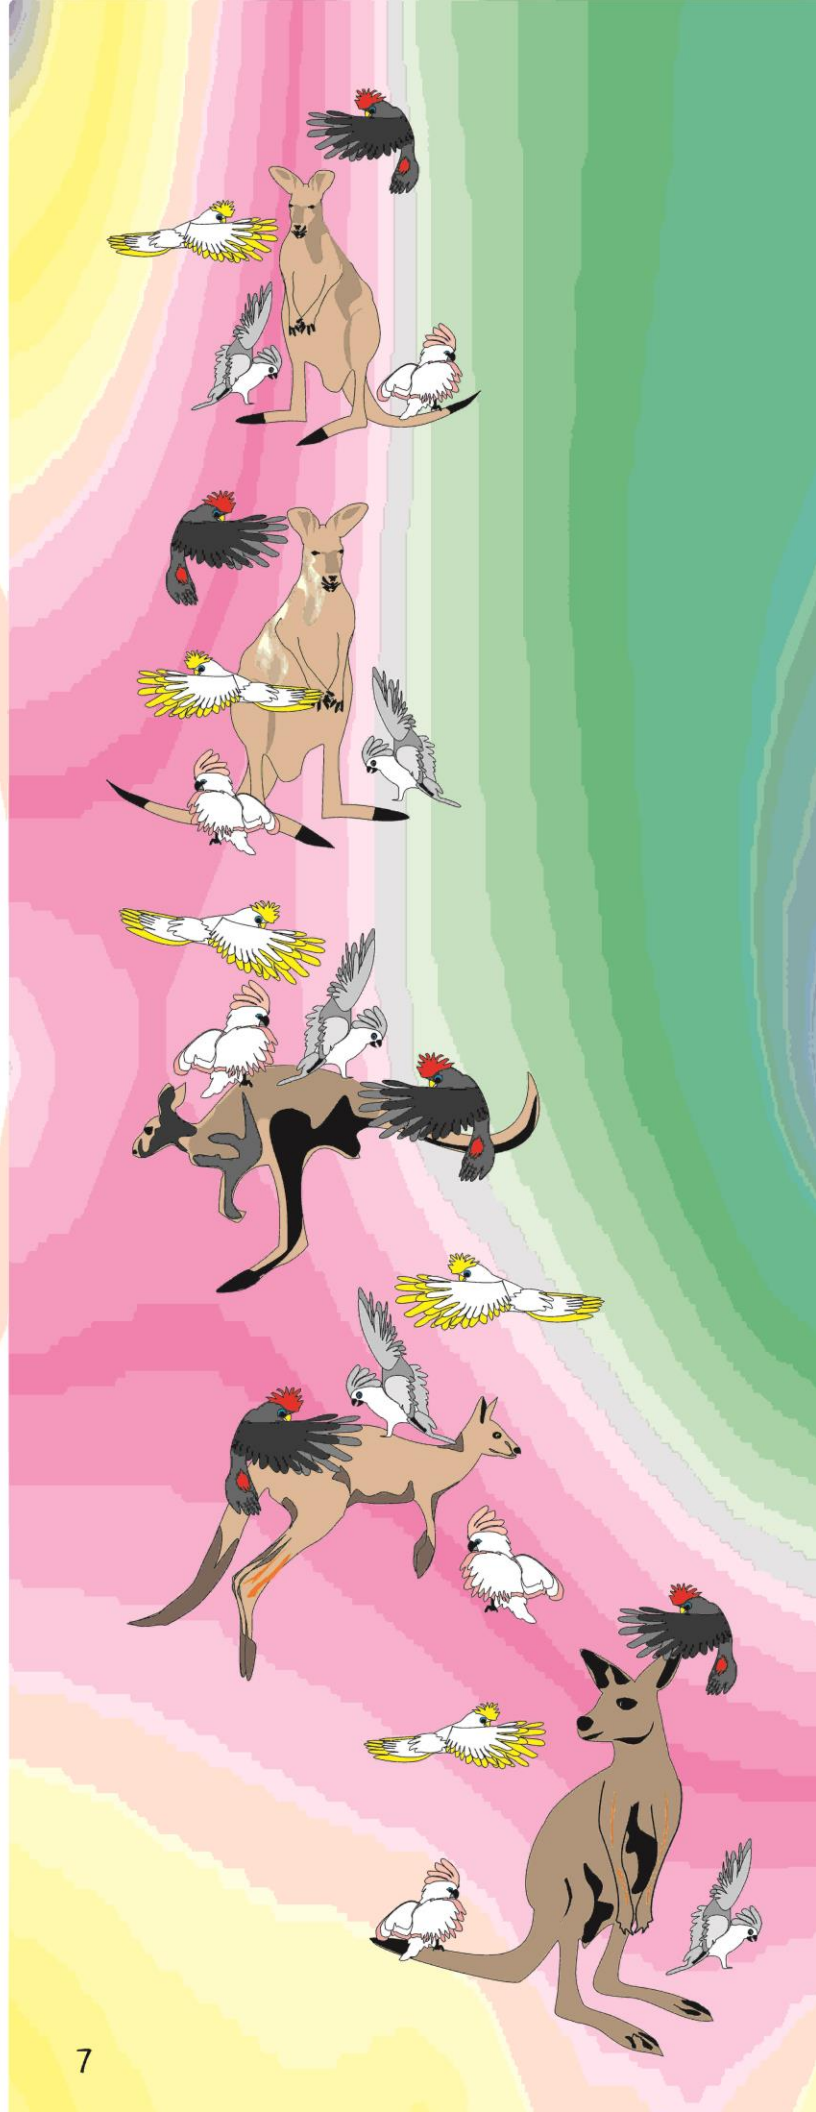

$8 \times 4$  is 32  
when each of 8  
large kangaroos  
plays with 4  
small cockatoos.

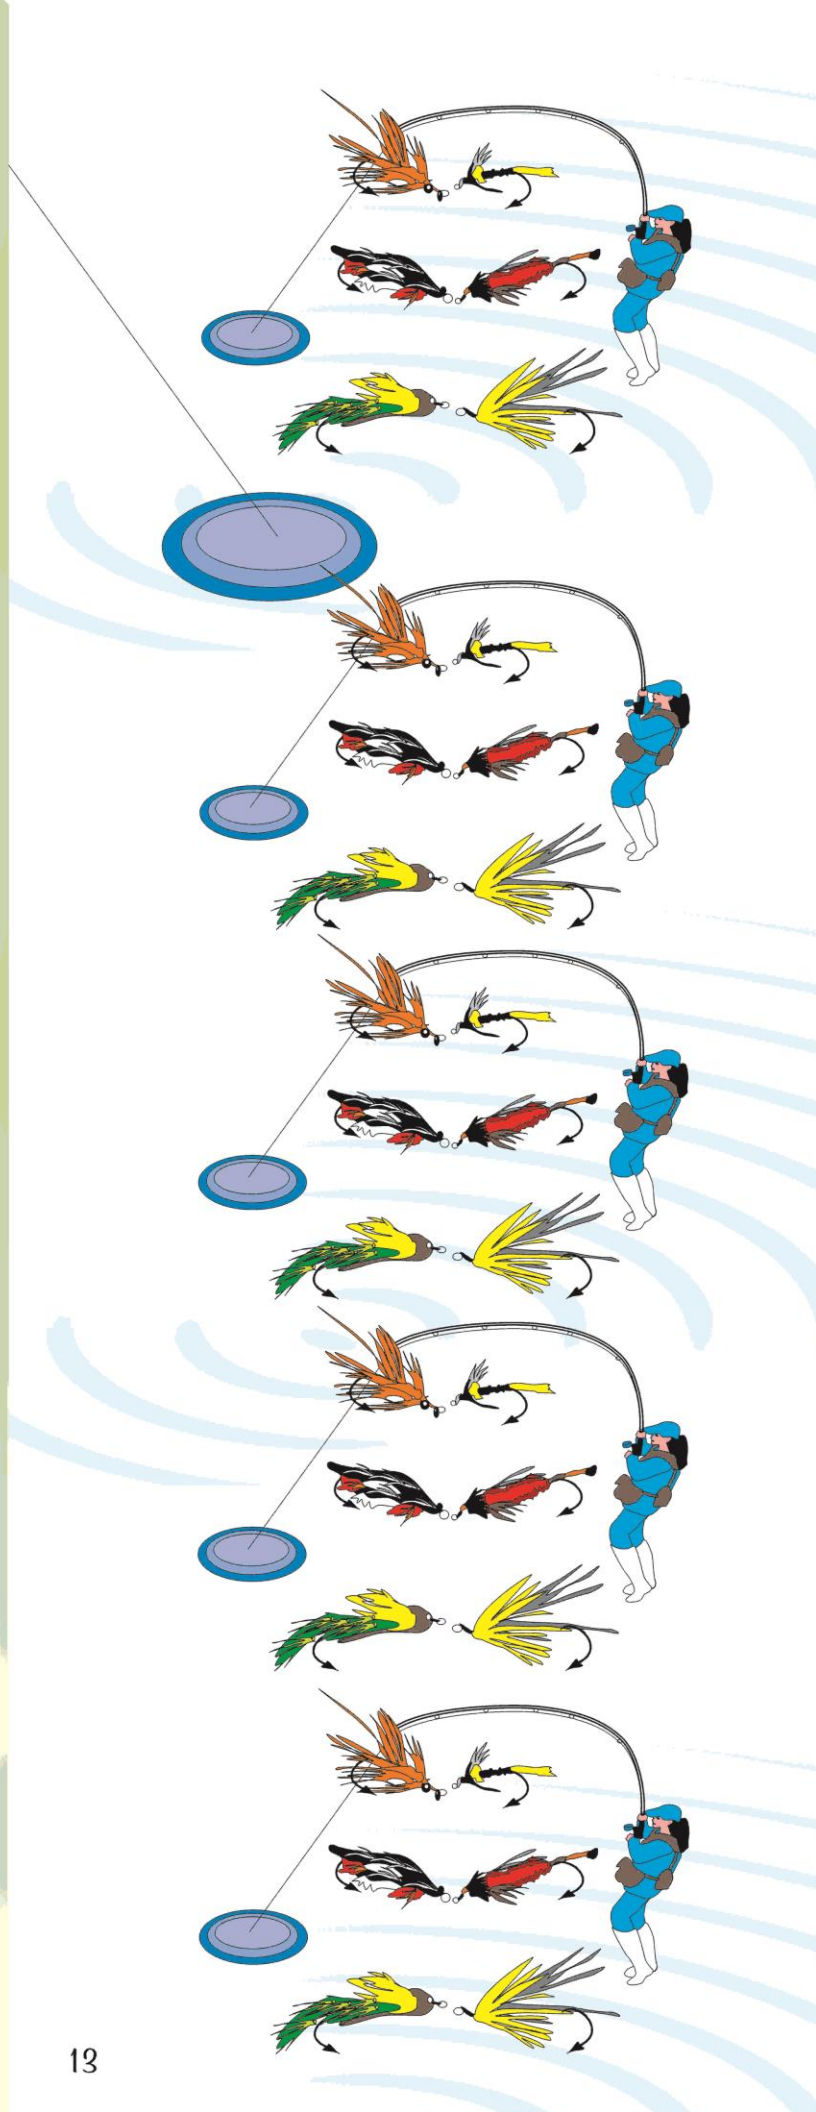

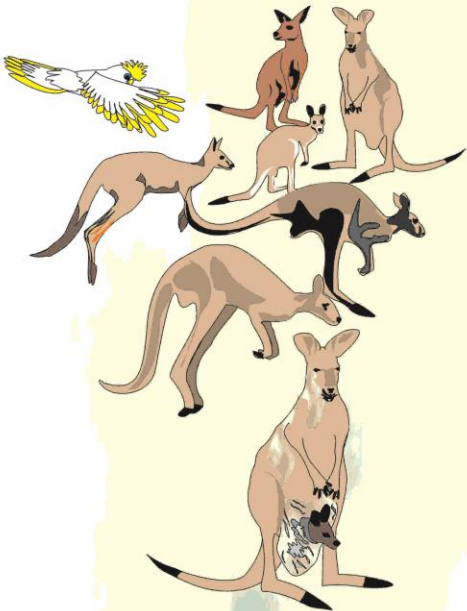

8 x 7 is 56  
if 8 each use  
7 hockey sticks.

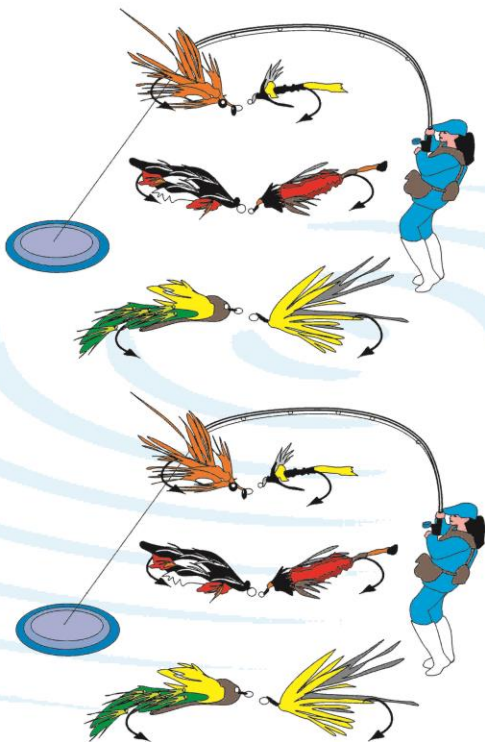

4 x 8 is 32  
when each of 4  
small cockatoos  
plays with 8  
large kangaroos.

$8 \times 6$  is 48  
when 8 each use  
6 flies for bait.

Don't forget to count the joeys!

8 x 5 is a sporty  
40  
when 8 of 5  
guard a territory.

No mama cheetahs  
are allowed to help!
