

$$8 \times 1 = 8$$

Grandma Tannis's

8 Times Rhymes

for kids who can count
to 72

$$8 \times 1 = 8$$

8 x 2 is a cool
 16
 when 8 each buy
 2 magazines

Note to Parents:

For millennia, people have used an oral tradition to pass information between generations. Rhyme and rhythm have always benefitted the process of memorization. As you read the book, you can count with your child to establish the validity of each rhyme.
